Underground Works in the SVABHEGY Area

1. At a distance of 6 - 7 kilometres from the ATTILA station, BUDAPEST, and along the road leading to the SVABHEGY area, there are numerous ventilatory tubes to be seen protruding above the ground on either side of the road. It is not known what they are, but it is thought that they might be for underground ammunition stores.
2. The area where these tubes were seen is heavily patrolled by armed troops.
